Foundations PRP

Psychiatric Rehabilitation Program (PRP) is a specialized program offering both a day program and community-based services that promotes recovery, full community integration and improved quality of life for persons who have been diagnosed with a severe and persistent mental health condition that seriously impairs their ability to lead meaningful lives.

Individualized and Goal-Oriented

Each PRP participant has an individualized and goal-oriented treatment plan developed by the participant, caregivers, family members, and the PRP team.

Foundations PRP empowers participants to participate in the full life of the community, helping participants make successful choices that provide a greater sense of satisfaction and an improved quality of life.

Services include, but not limited to:

Individual Case Management - Assists the participant in evaluating their strengths, needs and preferences, coordinates treatment; and builds necessary supports for recovery.

Individual, Group & Family Counseling - Provides interventions focusing on a variety of social, emotional and behavioral issues.

Independent Living Skills Training - Emphasizes the development of daily living habits necessary for success in work, family and independent living environments.

Money Management Services - Teaches participants money management skills such as using a budget and paying bills.

Vocational Services - Offers vocational counseling and support services that assist participants in obtaining employment.
